

MAURO D. ASUAJE G.

Remote Contractor — Python Automation Engineer
dvdasuaje1475963@gmail.com — mdasuaje.github.io

Professional Summary

Results-driven Python Developer specializing in workflow automation, systems integration, and API management. Expert at building robust backend scripts, connecting disparate cloud platforms (RESTful APIs, Webhooks), and optimizing data pipelines. Experienced in working asynchronously in Linux-based environments with minimal meeting overhead.

Technical Skills

- **Languages & Scripting:** Python (Requests, BeautifulSoup, Selenium), Bash, SQL, JavaScript.
- **Automation & APIs:** REST APIs, JSON, Webhooks, Zapier, Make (Integromat), n8n.
- **Environment & Tools:** Linux (CLI), Git, GitHub, Docker, PostgreSQL, MySQL.

Selected Projects & Experience

Independent Automation Contractor

Python Developer & Integrator

Remote
2024 – Present

- Designed and deployed custom Python microservices to automate data workflows between legacy internal databases and cloud APIs.
- Developed web scraping pipelines utilizing BeautifulSoup and Selenium, reducing manual data entry overhead.
- Managed cloud infrastructure deployments utilizing Docker containers and GitHub Actions for continuous integration.
